Recurring Electronic Fund Transfer (REFT)

DUSWM offers an alternative payment program that allows you to pay your bill automatically by having the payment electronically deducted from your personal checking or personal savings account.

By enrolling in this program, you:

- Save time by not writing a check for each bill
- Save money: no postage fees, no late payment fees, and no disconnection fees
- No longer worry about paying your bill while you are busy at home, or out of town on business or vacation
- Get the peace of mind of knowing your payments will ALWAYS be on time

DUSWM will continue to send you the quarterly bill statement by mail each billing period before your bill is due. You will know the exact amount of your payment and the exact date it will be deducted from your personal account.

To register in the REFT payment program with DUSWM, complete the application and return it to DUSWM with a voided bank check for personal checking account or a pre-printed deposit slip for personal savings account. The bank account number on the voided check or deposit slip will be the account from which your water/sewer charges will be paid.

Customers choosing to use REFT will have their direct debit arrangement confirmed on their water/sewer bill. When you receive your bill, look for a bill message that states the charges will be paid through direct debit. If the bill/bill stub does not reflect this message, the charges must be paid manually.
